CLIENT RISK PROFILING QUESTIONNAIRE

Pursuant to Regulation 16 of the SEBI (Investment Advisers) Regulations, 2013, as amended

Purpose of this Questionnaire

Under the SEBI (Investment Advisers) Regulations, 2013, an Investment Adviser is required to assess the risk profile of every client before rendering investment advice. This questionnaire helps us understand your financial situation (ability to take risk), your attitude towards risk (willingness to take risk), your investment objectives, time horizon and investment experience. Your responses determine your risk profile category, which forms the basis of the asset allocation and suitability assessment for your financial plan.

- Please answer every question honestly and to the best of your knowledge. There are no right or wrong answers.
- If any information changes materially in future (income, liabilities, dependants, goals), please inform us so the profile can be reviewed.
- Your risk profile will be communicated to you after evaluation, and reviewed at least once every year or earlier upon a material change.
- All information provided is kept strictly confidential and used solely for advisory purposes, in line with our privacy policy and SEBI regulations.
